WORK EXPERIENCE

EZ-NetTools — Web Designer; Front-End Developer

APRIL 2008 - PRESENT

- Create responsive websites with HTML and CSS.
- Use design software to design layouts and graphics.
- Meet with customers in-person and on phone to discuss projects.
- Brainstorm with customers on strategy, message, and design.
- Collaborate with programmers on user interfaces.
- Help co-workers solve problems and teach them new skills.
- Redesigned an administrative back-end user interface.
- Wrote a SWOT analysis that influenced policy changes within company and allowed us to compete more effectively.
- Wrote various articles & tutorials for both internal and external use.

Freelance Web Design

MAY 2018 - FEBRUARY 2019

- Designed and built website for a client to effectively sell instructional woodcarving videos and weekend seminars.
- Made various updates and added features.

Short-Term Solar Glasses Side Business

MAY 2017 - AUGUST 2017

- Collaborated with business partner to market and sell solar glasses leading up to 2017 Solar Eclipse.
- Designed and built website to sell solar glasses.
- Gained valuable first-hand experience running and promoting a small e-commerce shop that allowed me to more effectively coach clients with marketing efforts.
- Successfully sold our entire inventory.
